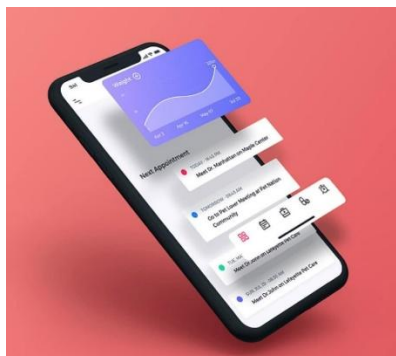

Graphic Request – "3D-fy" leaderboards and competitions to promote product.

I.e. take our base 2-D UI and amplify it via graphics to make components sit on different 3D layers (for X posts and other business posts)

For example, you would take our static 2D leaderboard on the website (can provide link if awarded job as it's under BETA at the moment):

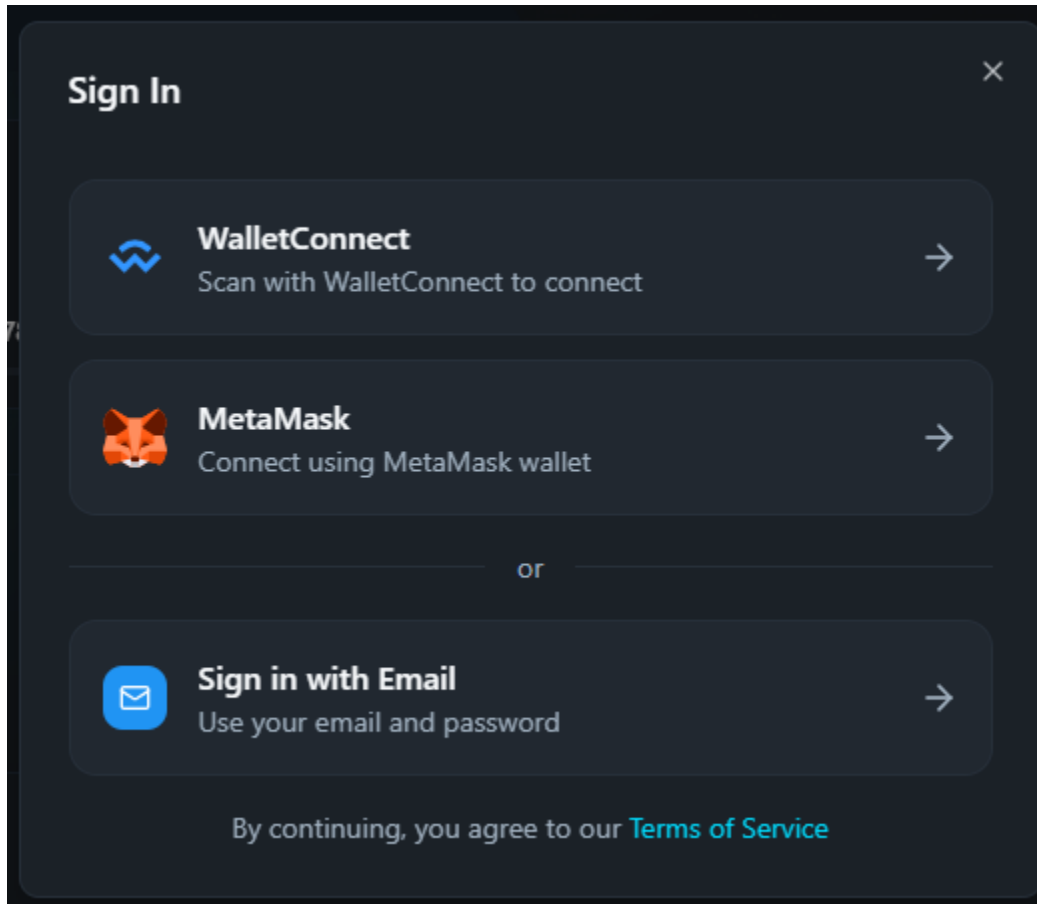

You would turn the above into a mobile graphic such as below and similarly for a website graphic (showing it from a 3D POV rather than the 2D):
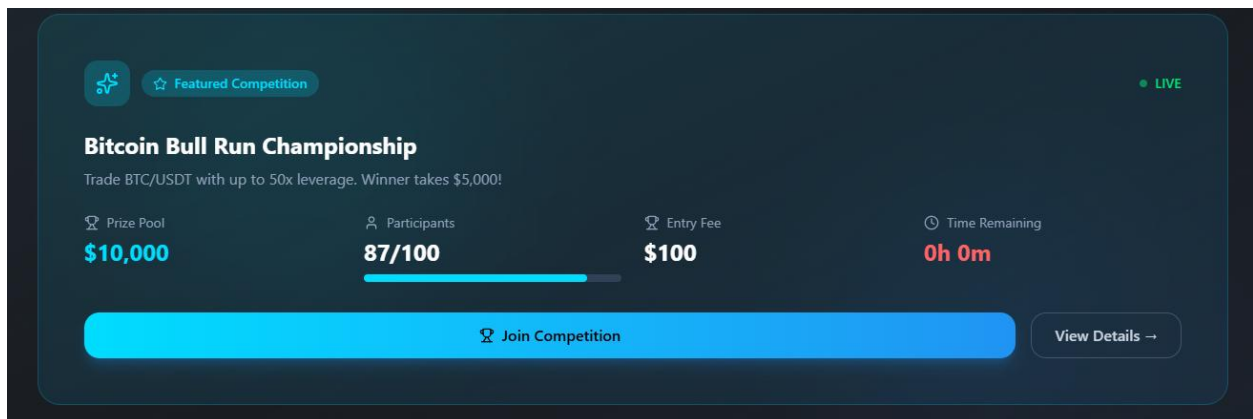

<u>Animation Request</u>:

Create a video showing how the operations of our product work.
I.e.

Login to metamask (below):

Scene 2 would show a competition:

Scene 3 would show the pop-up:

Bitcoin Bull Run Championship

🏆 **Join Competition**

By joining, you agree to the competition terms and conditions

Scene 4 would show the trading screen with the leaderboard on the bottom left having some sort of animation (that is up to the creative artist how they add their touch to make this a hype-demo video):

Scene 5 would showcase the overall website leaderboard:

Scene 6 would showcase the user profile page with the statistics sections available:
